

Drops of Jupiter:

Now that she's back in the atmosphere, with drops of jupiter in her hair
I've got a pocket, got a pocketful of sunshine, I've got a love and I know that it's all mine
She's got a smile that seems to me remind me of childhood memories
Now we're sharing the same dream, and our hearts they beat as one, no more love on the run

It's hard to take courage in a world full of people, you can lose sight of it all
I didn't rest, I didn't stop, did we fight or did we talk?
I feel it all, I feel it all.....

Whatever you want to do, is alright with me..cause you make me feel so brand new

There's a new world coming, this ones coming to an end
I wish somebody would have told me babe, someday these will be the good old days
And if I only could, I'd make a deal with god, and I'd get him to swap our places
I'll be the wind, the rain and the sunset...the light on your door to show that your home

I know you have a little life in you yet, I know you have a lot of strength left
I can still hear you saying, you would never break the chain
Time, mystical time, cutting me open than healing me fine
Near or far, closer together, everywhere I will be with you

It's true we'll make a brighter day, just you and me
But.....if the world was ending you'd come over right?
So we take each others hand, cause we seem to understand the urgency
Remember, listen as the day unfolds, challenge what the future holds

Pride can stand a thousand trials, the strong will never fall
One day tell our story of how we made something, we made something of ourselves
The tears dry without you, life goes on, but I'm gone cause I die without you
You are the voice and the guiding light, feel in your heart, how our love burns bright
